

February Focus Charity

The Tyson Family

A student at SAY brought this family to our attention. Abel is 18 months old. He is currently at St. Jude's Hospital, where he is undergoing many tests and evaluations. He has been diagnosed with Stage 3 Neuroblastoma and is also suffering neurological effects after being administered CPR for 20 minutes during his surgery on January 2, 2007.

Please visit <http://www.caringbridge.org/cb/viewHome.do> to learn more about the Tyson family and Abel's fight for life.

Abel before surgery

The Tyson family at St. Jude's

100% of the proceeds from Super Bowl Yoga, on Sunday, February 4th, and Community Flow Yoga on February 10th will be donated to this family.

thank you
